Surge arrester Surge Controller V25-B+C 3-PH900 number of poles 3, lightning surge current (10/350 μ s) 7kA, nominal voltage DC 900V, max. PV voltage 900V, protection level 3kV, size 3 TE, optical signaling on the device, test class type 1 and 2, Type 1+2 combined arrester for photovoltaic systems. Error-resistant Y circuit for use in accordance with VDE 0100-712 (IEC 60364-7-712). Overvoltage protection equipotential bonding according to VDE 0100-443 (IEC 60364-4-44). Discharge capacity up to 7 kA (10/350) and 50 kA (8/20) per pole. Low DC protection level: < 3.0 kV and Uoc max = 900V DC. Pluggable arrester with thermo-dynamic disconnect device and optical function display. Encapsulated zinc oxide varistor arresters for use in distributor housings. Application: PV systems with lightning protection system.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
