Lightning current meter with date and time LSC I+II design evaluation unit, number of sensors 1, current measuring range 1 ... 100kA, protection class (IP) IP65, ambient temperature during operation -20 ... 60°C, lightning current meter LSC I+II with LCD display and long-life internal battery. For recording and storing impulse currents caused by lightning strikes. By recording the date and time, it is particularly suitable for testing and maintaining lightning protection systems in accordance with VDE 0185-305-3 (IEC 62305-3). Due to the high protection class IP67, the lightning current meter can be used indoors and outdoors. With the integrated cable clamp for round or flat conductors, the lightning strike counter can be mounted directly on the surge arrester or the PE line of the overvoltage protection device. Tested according to VDE 0185-561-6 (IEC 62561-6).

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
