Input module analog SIMATIC ET 200SP 6ES7134-6HD01-0BA1 supply voltage at DC 19.2 ... 28.8V, voltage type of the supply voltage DC, input, current, input, voltage, input signal configurable, resolution of the analog inputs 16-bit, number of analog inputs 4, Number of analog outputs 0, analog inputs configurable, number of HW interfaces Industrial Ethernet 0, number of HW interfaces serial RS-232 0, number of HW interfaces serial RS-422 0, number of HW interfaces serial RS-485 0, number of HW interfaces serial TTY 0, number of HW interfaces parallel 0, number of HW interfaces wireless 0, number of HW interfaces USB 0, number of HW interfaces other 0, system component, degree of protection (IP) IP20, Design of the electrical connection other, field bus connection via separate bus coupler possible, DIN rail mounting possible, front installation possible, rack mounting possible, explosion protection category for gas ATEX Gas-Ex-Schu tz, cat. 3G, explosion protection category for dust without, width 15mm, height 73mm, depth 58mm, SIMATIC ET 200SP, analog input module, AI 4XU/I 2-Wire standard, packaging quantity: 1 piece, suitable for BU type A0, A1, color code CC03, module diagnostics, 16 bits, +/-0.3% The SIMATIC ET 200SP is a modular, scalable and highly flexible, distributed I/O system. Due to its small footprint, it is particularly designed for installation in small switch boxes close to the machine. The modules can either be plugged directly into an ET 200SP CPU or connected to a central controller via PROFINET or PROFIBUS. The SIMATIC ET 200SP can be expanded with up to 64 I/O modules that can be plugged in in any combination. The system offers a very extensive range of assemblies. Many modules are also available in different versions, which significantly improves scalability in terms of functionality and price. In addition to modules with standard functionality (ST), modules with an extended range of functions and diagnostics (HF High Feature / HS High Speed) are also available. Modules with basic functionality (BA) are available for price-sensitive applications. The advantage of the ET 200SP system is that it is easy to use, e.g. B. through the free choice of the PROFINET connection technology via the bus adapter, the tool-free wiring with push-in technology, improved accessibility of the wiring through the new arrangement of the spring openers next to the associated conductor opening and the channel-specific diagnostic functions. The possibility of changing modules and terminal boxes during operation, the so-called hot-swapping, ensures machine availability and productivity. The scalable and...

### YOUR ADVANTAGES

**WORLDWIDE TRADE**  
 Corporate video eibmarkt®

**99% CUSTOMER SATISFACTION**  
 > 500,000 customers worldwide

**DHL TRACK & TRACE**  
 Shipment tracking

**COMPLAINTS HANDLING**  
 Obliging and 100% safely

**25 YEARS OF EXPERIENCE**  
 In worldwide mail order

**ORDER LIVE CHAT**  
 With order history

**SHORT DELIVERY TIME**  
 Warehousing

**REFUND**  
 Within 14 days

**DATA PROTECTION**  
 Guarantee

\* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

\*\* Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

\*\*\* Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
