16-17 days* (IND)

Weighing electronics with bus connector 7MH4950-2AA01 Number of functions 1, Suitable for weighing, Explosion protection category for gas without, Explosion protection category for dust without, During the weighing process, the SIWAREX FTA weighing module monitors and controls the scale signals and states. The optimized internal SIMATIC data exchange enables direct evaluation of the scale signals and statuses in the PLC program. By influencing the weighing processes on the PLC side, the SIWAREX FTA can be easily adapted to changes in the system technology. The SIWAREX FTA is already adjusted in the factory. This enables both the theoretical adjustment of the scales without adjustment weights and the exchange of modules without readjusting the scales. In connection with active bus modules, modules can be replaced during operation
