Circuit breaker 250A 3-pole NZMC3-S250-AVE overload release current setting 0A, setting range of the instantaneous short-circuit release 8 ... 14A, magnetic release technology, rated operating voltage 690 ... 690V, rated continuous current I_n 250A, rated operational power at AC-3, 230 V 75kW, rated operational power at AC-3, 400 V 132kW, connection type main circuit screw connection, design of the actuating element rocker arm, device design built-in device withdrawable technology, number of poles 3, rated limiting short-circuit breaking current I_{cu} at 400 V, AC 36kA, degree of protection (IP) IP20, height 260mm, width 185mm, depth 346mm, the circuit breakers of the NZM... S series cover all applications with only four compact sizes and are suitable for the IEC market. The assembly is always flexible thanks to modular function groups. With magnetic short-circuit release in connection with motor protection relay, with short-circuit release without overload release. Notes: Circuit breakers meet all requirements of utilization category AC-3.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
