Radio antenna with 250 cm cable FA250 other version, reception range other, length 10m, number of frequency bands 1, frequency band 1 868 ... 868MHz, omnidirectional, radio antenna with magnetic base and 250cm cable. The small radio antenna included with the radio antenna modules and some radio transmitter modules can be exchanged for this larger 868Mhz HF antenna for receiving or transmitting radio signals to or from metal control cabinets. It is attached externally with a magnetic base and the 250cm long cable is routed inside. It performs best when stuck to a metal surface with the magnetic base. The transmission and reception range is almost spherical around this antenna. Height of antenna only 10cm. With SMA screw connection.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

- ** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.
- *** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
