ServiceSpray cold spray KÄLTE 75 Super 200ml area of application electrical connections, cleaning function, content 200ml, flammable, lead-free, chromate-free, quick-drying, paintable, high cooling effect (up to max. -55 °C). Working under voltage possible. Evaporates quickly and leaves no residue. KÄLTE 75 SUPER contains an absolutely non-flammable cold mixture with a particularly high cooling effect. The well-balanced dosing system prevents unnecessary spraying of the cold mixture and ensures a high yield. Cold sprays are ideal for cooling components and surfaces at lightning speed. This is used for thermal troubleshooting on electrical components, for functional testing of thermostats and temperature sensors, for simple climate tests or for shock freezing rubber, plastic or adhesive residue can be used in particular when working under voltage and in explosion protection areas.
