Fan ER-APB 100 VZ nominal width 75mm, volume flow 100m³/h, color white, medium temperature -20... 40°C, surface-mounted mounting type, rated voltage 230V, mains frequency 50Hz, other composition, nominal current 0.15A, speed 18501/min, material of the housing plastic, direction axial, protection class (IP) other, width 236mm, height 236mm, depth 217.5mm, version with light control: barrier-free product because it switches on/off automatically. The light control switches the fan on at a minimum brightness in the room, e.g. B. when switching on a lamp. Switch-on brightness (on the device) min. 30 lux. Switch-off brightness (on the device) max. 0.3 lux. There is no need to install a switch. Switch-on delay approx. 50 seconds. Follow-up time approx. 6 minutes. Not speed controllable. Circuit variant: With an additional switch, the fan can be switched off independently of the room lighting (see circuit diagrams on the Internet). Surface-mounted fan with G2 filter for ventilation of bathrooms, toilets or kitchens. With maintenance-free fire protection metal butterfly valve to prevent fire spread K90-18017. Housing can be rotated, thereby connecting the outlet nozzle to the top left or top right to the main line. Color traffic white similar to RAL 9016. Easy filter change without tools. Metal outlet nozzle DN 75/80 with metal butterfly valve with automatic release device. The extremely steep characteristic curve shows the high pressure capacity of the ER fans. Robust energy-saving capacitor motor. Maintenance-free, with ball bearings closed on both sides. Electrical plug connection for quick installation of the fan in the housing. All MAICO ER devices comply with protection class IP X5 and can therefore be installed in area 1 according to DIN VDE 0100-701, even with water jets. For details see planning information. Protection class II. General building authority approval, approval number: Z-51.1-45. Approval notices on request or on our homepage Volume flow characteristic and leakage air rate tested by TÜV Bayern eV Leakage air volume flow < 0.01 m³/h. Shaft level difference according to DIN 4109, tested by IAB Oberursel. With VDE mark. Article: ER-APB 100 F, version: light control, delivery volume: 100 m³/h, speed: 1850 1/min, air direction: ventilation, speed controllable: no, SEC average: -21.24 kWh/(m² a), Rated voltage: 230 V, mains frequency: 50 Hz, power consumption: 29 W, IMax: 0.15 A, protection class: IP decentralized, material: plastic, color: traffic white, similar to RAL 9016, weight: 2.1 kg, filter class: G2, fire protection: yes, shut-off device: integrated metal butterfly valve with trigger device, connection...
