Jokari cable knife 8-28mm straight Kl. 12 0011 stripping area diameter 8... 28mm, notch depth adjustable, longitudinal cut, round cut, interchangeable knife, cable knife Two-component tool with non-slip soft grip insert for optimal handling and thumb recess with hooked blade 8 - 28 mm diameter Cable knife that has been tried and tested millions of times for circular and longitudinal cuts, the cutting depth can be individually adjusted using a screw so that damage to the inner conductors is ruled out. Grip shells made of wear-resistant polyamide. Both the tips of the internal cable cutters and the cutting edges of the attached bracket blades are coated with titanium nitride. Titanium nitride is vapour-deposited on the cutting blade in the vacuum chamber at approx. 500 degrees C using the PVD process. Due to the reduced surface structure and the extremely high hardness, excellent sliding properties and high wear and abrasion resistance are achieved. TiN-coated knives can be used with significantly higher durability and cutting performance.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).
** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.
*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
