DuoFern hand-held transmitter standard 1-channel 9491-2 radio frequency 434.5MHz, VHF (FM) modulation, rolling code system, range 30m, number of commands 2, radio hand-held transmitter, degree of protection (IP) IP30, battery power supply, the radio hand-held transmitter is standard a remote control for radio receivers. It is ideal for the central control of, for example, roller shutters, awnings and blinds or as an on/off control for switching lights. With this version of the radio hand-held transmitter, up to 48 radio receivers can be operated manually at the same time. The standard radio hand-held transmitter has a red/green status LED for visual acknowledgment that commands have been received correctly. It can also be used to subsequently set the end points and reverse the direction of rotation of wireless tubular motors. The standard radio hand-held transmitter is supplied with a wall bracket. It is operated with a CR 2450 battery and has a supply voltage of 3 V. The battery life is approx. 2 years with five operations per day. The transmission frequency is 434.5 MHz and the transmission power is max. 10 mW. A range of approx. 100 m is achieved outdoors and approx. 30 m indoors (depending on the structure of the building). The standard radio hand-held transmitter can be operated at +5 °C to +40 °C. The dimensions of the wireless hand-held transmitter are 140x43x18 mm (LxWxH) and the weight is 70 g.
