plus shipping

5-6 days\* (IND)

Safety Module, 2SU MDRC. MDRC device. Increases the safety of the protected line in the inner and in the outdoor area and protects against manipulations. Easy retrofitting in existing KNX installations. Blocks the connection and prevents the programming and unloading of KNX devices within the line. Safety function is started automatically after bus voltage recovery and/or programming of the Safety Module. Safety function can be temporally disabled by pressing the button on the device or 14Byte telegram. Safety function for detecting a failed device in the line. Active or passive monitoring of up to 100 KNX devices. Alarm is stored as plain text message in the internal ring memory. Quick application download (long frame support for ETS5).

\* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

\*\* Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

\*\*\* Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
