Interface 75648001 bus system KNX, other bus systems without, type of installation flush-mounted, width in modular units 0, with bus coupling, control LED, number of inputs 8, input voltage 20 ... 20V, type of input voltage AC/DC, protection class (IP) IP20, universal interface 8-fold Comfort Up KNX black. Universal interface 8-fold comfort, configurable for 8 inputs, 4 inputs and 4 outputs or 8 outputs. The universal interface comfort is a KNX component for installation in commercially available 60 mm flush-mounted switch boxes or in devices or housings. It represents an interface to potential-free contacts. The universal comfort interface recognizes changes in the switching status at the respective inputs and sends telegrams to the bus according to the parameterized application. Depending on the loaded application, all channels can work as inputs or outputs or as a combination of these two (4 inputs/4 outputs). The universal button interface can control up to 8 LEDs or read in up to 8 potential-free buttons via your inputs and send corresponding telegrams to the bus. A connection of 230V signals to the inputs is not permitted. The following application settings are available for the universal interface comfort: Buttons, switching, switching in toggle mode, dimming (one and two-surface operation), blind control, switching and dimming, switching and blind control, cyclic transmission, 2 operating levels (only with buttons), switching, dimming and blind control, light scene retrieval, edge, value transmitter, forced operation. Applications: 8 inputs, 8 outputs (LED, max. 0.8 mA per output), 4 inputs/4 outputs.
